Torrevieja was originally a small village with fishing as the main occupation. In addition, the city is known for its two large salt lakes. One of these salt lakes are protected area. The nature around the lake is untouched and has created a beautiful area for hiking, and is also a popular “rest area” for birds flying between northern and southern Europe. In addition, there are often large flocks of flamingos in the lake. From the other “active salt lake” is annually produced 600-700.000 tons of salt. This salt lake is also known for its spectacular color. When the sun is shining on the water at daytime, the water gets a purple/reddish color.
